6.0 SIMPLEX (SIMP) MODE

- 6.1 Each DTR radio in the State of Colorado also has five "simplex" channels programmed. These are shown as SIMP 1 through SIMP 5 on the digital display screen on each DTR radio. Simplex transmissions are only for radio-to-radio communications. Simplex transmissions do not utilize the DTR tower network. Therefore, simplex transmissions have a relatively short range (dependent on geography and structure of receiving units)
